

# Cable Conveyors

We at Custom Metal Design have developed a niche in becoming the leader in cable conveyor systems for over 30 years.

When you have a stable, easy to run container, and you need additional accumulation, a Custom Metal Design cable conveyor system is the only way to go! It is cost effective and requires less maintenance than your standard conveyors.

We offer multiple set-ups for all container sizes, straight sections as well as drive and idle units, corner turns, combiners, dividers, and incline units. Simply put - we offer it all. And all of these components are designed to fit your individual plant needs.

Also note that all parts are manufactured at our own facility assuring us, and you, of the quality you demand. We even have an on-site foundry assuring quick turn around of all jobs.
